DEMC Journal

AIMS OF THE JOURNAL

To publish short articles in French or English on all aspects of empirical research in the social sciences (anthropology, economics, ethnology, human geography, history, psychology, political science, sociology, etc.). Short publication deadlines, fully electronic publication for rapid promotion of work and wide dissemination of empirical resources.

FOUR TYPES OF PUBLISHED ARTICLE

- **Data:** presentation of original empirical material (surveys, databases, interviews, etc.).
- **Experiments:** presentation of a laboratory, field or survey experimental protocol.
- **Methods:** presentation of a new method of exploitation, collection or statistical processing of empirical material (qualitative or quantitative).
- **Codes:** presentation of computer programmes for collecting, processing or analysing empirical data.

ORGANISATION OF THE JOURNAL

The journal is managed by two editors, a scientific secretariat and an editorial board
